Summer Transportation STEM CAMP

HEY KIDS! Crank up your creativity & learn about the science of transportation

If you are a rising 7th or 8th grade student interested in science, technology engineering and math, this is a great opportunity to learn more about the practical application of STEM in transportation careers. Today's transportation industry needs young people who want to learn about STEM programs and maybe even work one day in the transportation industry.

At the Washburn University camp, you'll learn to work with a team to solve problems. You'll made 3D designs on a CAD program and you'll even get a chance to program robots.

The camp is free including meals and staying in one of Washburn's modern residence halls.

Space is limited so fill out the application on the back today!

Two One Weeks
Camps to
Choose From
in 2018

July 16-20

or

July 23-27

- Learn more about STEM
- Program robots
- Try out 3D design
