1. GENERAL INFORMATION

Welcome to our school district! We are privileged to be able to meet and serve our youngest learners! We look forward to partnering with you to build a solid foundation for your child's education and to ignite a love of learning in your child that will support success for a lifetime!

The vision of the Auburn-Washburn Unified School District is to provide all children a safe, enjoyable, and challenging school environment where they have the opportunity to achieve their maximum individual education potential. All students will receive a balanced education where traditional scholastics are taught, creativity and innovation are cultivated, and life skills are learned; preparing them to assume roles as responsible citizens in a global community.

Our purpose in early childhood education is to use developmentally appropriate practices to support children in a safe, nurturing and stimulating environment. These practices include five important characteristics:

1. We facilitate not only cognitive development but also social and emotional development, focusing on areas such as learning to take turns, learning to respect others, and feeling good about one's accomplishments.
2. We support children as they develop at their own pace and to pursue their own interests.
3. We encourage children to control their own learning by relying on discovery and exploration rather than on drill and practice or other teacher-controlled activities.
4. We provide activities matched to an individual child's current level of functioning, with the aim being for the child to participate in activities that require skills just slightly in advance of those already in the child's repertoire.
5. We have a realistic academic orientation—one that introduces basic academic skills to prepare children for Kindergarten, but without attempting to push children too far academically.

Our programs follow the Auburn-Washburn school calendar and are not in session during school breaks and in-service days. In addition, school dismisses early 12 times per year to allow teachers time to collaborate and plan for student success.

Morning classes begin at 8:45am and end at 11:30am. Afternoon classes begin at 1:00pm and end at 3:45pm except for Pauline Central. Pauline Central's morning classes begin at 8:35am and end at 11:20am. Pauline Central's afternoon classes begin at 12:50pm and end at 3:30pm. Students who arrive at school for individual or small group therapy will have times that vary from this class schedule.

Enrollment: At enrollment the following must be provided for school records:

1. Current Immunization Report
2. Proof of residency within the Auburn Washburn district boundary
3. Birth Certificate

Fees : An enrollment fee of \$5 for each day a child attends a therapy group or attends a classroom. For example, if your child attends a classroom for 5 class sessions each week, the enrollment fee for the school year would be \$25 (\$5 each day for the 5 days). This fee is due at enrollment.

Attendance is important! We want your child to benefit from instruction and build relationships with their friends in preschool every day! This is the time to get your child in the habit of going to school every day. However, if your child needs to miss school due to illness or other circumstances, we ask that you call your child's teacher to excuse him/her. If your child rides the bus you also need to call transportation at 339-4050 before 7:45am. You may leave a message on voice mail at both numbers.

Parents who transport their children to school must refer to the Parent/Student Handbook from the school the child attends to read the procedures for picking up and dropping off their child. We appreciate your promptness when you pick up your child after school! You may bring your child to the building 10 minutes before actual starting time, but not before (there is no supervision available).

Severe weather is a part of life in Kansas, and we have safety plans in place.

Fire drills are conducted monthly, under the direction of the building principal. Everyone must quickly exit the building during a drill and remain at the designated areas until the "All Clear" signal is given. We ask that you do not enter the building while we are conducting a fire drill. You may join your child's class at its designated spot.

Tornado drills are conducted at least three times per year, under the direction of the building principal. The principal will assign a tornado drill area for each group of students within the tornado shelters located in each building. Everyone must report to and stay in their designated area until the "All Clear" signal is given. Parents and visitors will also be assigned an area.

Snow days are determined by the Superintendent. School closings will be announced on television stations WIBW, KSNT and KTKA and radio stations WIBW, KMAJ, KDVV, KQTP, KTOP, KTPK, KLWN and KLZR. During inclement weather, a recorded message containing school closing information can be accessed by calling 339-4000.

2. CURRICULUM

The Auburn Washburn Early Childhood program has adopted the *DLM Early Childhood Express* curriculum materials to guide instruction toward mastery of learning indicators. The DLM is a holistic, child-centered program that nurtures the children by offering carefully selected and carefully sequenced learning experiences. It provides a wealth of materials and ideas to foster the social-emotional, intellectual, and physical development of children. Lessons in the DLM Early Childhood Express are focused on language acquisition and those all-important early reading skills. At the same time, it nurtures the natural curiosity and sense of self that can serve as the foundation for a lifetime of learning. A Smart Board is available in most classrooms to enhance instruction.

The Auburn Washburn Early Childhood program has also adopted the *Handwriting Without Tears (HWT)* curriculum materials to guide instruction. The goal of HWT is to make legible and fluent handwriting an easy and automatic skill for all students. The curriculum uses multi-sensory techniques and consistent habits for letter formation to teach handwriting to all students in Early Childhood. In addition, HWT provides parents and teachers the instructional techniques and activities to help improve a child's self-

confidence, pencil grip, body awareness, posture and much more.

Daily activities include:

Free choice: Children may choose from blocks, puzzles, dress-up clothes, playhouses, books, manipulatives/table toys, and arts and project materials. These are all within their reach and available throughout the day. Children are given ample time and space to imagine, explore, and play cooperatively. During this time, children also have the opportunity to work on multi-level, multi-sensory, multi-objective projects, which have been designed and presented with an emphasis on process and exploration rather than product.

Circle time: Children work on many skills during this teacher directed activity. Songs, finger plays, calendar, counting, talking and sharing, reading stories, playing games, language development activities, and sign language are all used to deliver curricular and individualized material.

Centers: This is a favorite part of many children's day. Children may choose between several different activities in the areas of gross motor, cognitive, creative fine motor, art, computer, social skills, language and self help. Many of these areas overlap so there are many skills being addressed at each center. Children are encouraged to eventually participate in each center.

Music/Language: Instruments, songs and finger plays are used to develop language and to reinforce skills.

Snack: This time is used to promote choice making, language and social interactions. Motor skills and self help skills are also addressed as children tend to their eating utensils and food. Sometimes teeth are brushed after snack time.

Book Time: The book area is used for stories. Children select and look at picture books individually or in small groups with and without adult participation. Labeling, pointing, retelling the story, finding letters and words are all skills that are worked on during this time.

Outside Play: During this time the entire class is involved in motor activities on our playground. Dramatic play may also occur outside. During inclement weather these activities are moved indoors. Children should wear shoes that are safe for running and active play - no flip-flops please.

Social Work Services: School social workers are available to work with students regarding issues such as friendships, feelings, decision making skills and appropriate behavior.

Library: Children attend story time in the elementary library. They can choose a book to bring back to the classroom. These books are available during book time.

HOME/SCHOOL COLLABORATION

Classroom procedures are in place in each room, and vary by teacher. Teachers will be happy to address questions regarding classroom procedures. For both reasons of confidentiality and staffing, when concerns arise, we request you make an appointment for a conference if you wish to speak at length with a staff member. This ensures that we may give full attention to your questions and concerns without compromising the supervision of the children.

Classroom Management: Children are praised intermittently throughout their day for making good choices, engaging in activities appropriately and participating with friends in cooperative manners. Appropriate rules for the classroom are established and reinforced on a daily basis. Each classroom teacher designs his or her management system. Teachers will generally use these and similar steps in order to address a child who is not following classroom rules:

1. Verbal reminder in positive terms (ex. Please use your inside voice).
2. Redirection- teachers model desired behavior. If needed, teachers assist child to perform appropriate behavior.
3. Giving Choices- teachers give child the option to choose between two acceptable behaviors or activities.
4. Loss of privileges; depending on the circumstances children are given time away from the other children to regain their composure. They are told that they may try again when they can be a part of the group and are able to work with others.

Concerns are addressed directly. The effectiveness of our early childhood program is dependent upon excellent communication between staff and parents. Please follow the order below.

1. Discuss problem with your child's classroom teacher.
2. Discuss problem with Supervisor of Early Childhood Services.
3. Discuss problem with the building Administrator.
4. Discuss problem with the Director of Student Services.
5. Put your concerns in writing to the attention of the Superintendent.

Communication systems can be developed with your child's teacher. Notebooks, emails, phone calls and newsletters are common ways we share what is going on at school. Please let our staff know what works for you.

Report Cards

Report cards will be sent home with students at the end of each nine (9) week session, except after the first nine (9) weeks when they are given at conferences. Parents may contact the teacher if any questions arise concerning the report. Much is to be gained by checking directly with the teacher if a problem exists.

Parents are welcome to visit your child's classroom. We recommend that arrangements are made in advance with the teacher and that visits not exceed one hour. There may be situations that require longer visits. These should be discussed with the Supervisor of Early Childhood Services and your child's teachers. Sometimes an outside service provider may need to visit and/or observe your child. When this is required, please arrange these visits with the Supervisor of Early Childhood Services.

Please do not bring toys or pets from home. We have many stimulating toys and pieces of play equipment to challenge, teach and entertain your child. There is no need to bring anything from home. If toys do appear at school, be aware that the school will not be responsible for them. If the toy is considered dangerous or distracting, school staff may keep it during the day and return it to you or your child at the end of the day.

PARTIES AND BIRTHDAYS

Celebrations are welcome!

1. You may bring treats to celebrate your child's birthday with their school friends. This should be arranged with the classroom teacher. Simple treats work best for active children.
2. No birthday invitations or valentine's cards can be brought to school and passed out unless every student in the class receives one.
3. Teachers will not provide names or addresses of other children.
4. Room parties are held on three occasions during the year: Halloween, Winter Break and Valentine's Day.

If you should decide to withdraw your child from our program, we would appreciate any advanced notice you can give us. If you are moving out of our school district our staff will work with you to forward your child's educational records to his/her receiving school. If your child is enrolled as a peer model, tuition will be assessed through the end of the last month in which your child attended school.

3. SERVICES

Preschool Screening: Diagnostic screening services are available for preschool children whose parents suspect their child may have a significant delay in developing skills. The purpose of preschool screening is to identify children with developmental delays that may interfere with their future education.

Hearing, vision and developmental skills are screened by professionals specifically trained in early childhood assessment. Upon completion of the screening, the staff and parents will review the results and assess the need for further evaluation. Contact Carol Ondracek at the Early Childhood Center, 408-8374, to schedule a preschool screening.

4. PROGRAMS

We offer several types of early childhood education in our preschool settings. This allows us to serve as many children as possible, and to meet the needs of individual learners. Classrooms may contain a mix of students who are enrolled in different programs or "slots". Not all programs are available at all attendance centers. Children attend 3, 4 or 5 days a week, depending on the needs of the student. Most of the programs we offer have specific criteria that determine eligibility. These programs include:

At-risk 4-year old preschool – students must be 4 years old by August 31 of each new school year. Families must meet at least one of eight eligibility criteria such as low income, single parent, parent lacks a high school diploma, etc.

Students with a disability – students must be determined eligible for special education services through a comprehensive evaluation. Students may be ages 3-5 years. Students in this program may receive services in our classrooms, in community preschools, at home or in other community settings.

Kindergarten prep – students who have finished preschool and are not quite ready for kindergarten. Preschool teachers refer students for this program. This program is only available at Pauline Central Primary School.

Title One – students who live in the neighborhood of a school designated as being a Title One school (a certain percentage of families in that school meet socio-economic eligibility criteria). Currently this program is only available at Pauline Central Primary School.

Peer Models – students who have passed an eligibility screening. There is a fee associated with this program (see below). Peer models slots may be filled by children of district patrons, employee parents or employee grandparents.

Tuition - Peer Models only:

Tuition is due on the first day of the month for the 10 month school year (August through May), regardless of a child’s attendance. The August payment is due the first week of school. If your tuition is not paid by the end of the month your child may be dropped from enrollment. All unpaid tuition must be paid in full before any re-enrollment can be handled by the school.

Payments may be made online using the districts Pay School software (see the building secretary for access to the website), or with either cash or check made payable to “USD 437” and mark your check “Preschool”. You may also want to consider putting your payment in an envelope. We request that the payment either be mailed or hand delivered to the office at your child’s school building. If you deliver payment to the office, please make sure you hand it directly to one of the secretaries as then we are assured that your payment is properly credited. The school offices are open from 8:00am to 4:00pm on school days.

A late fee of \$20.00 will be assessed for payments not received by the 15th of each month.

- Monthly tuition for a student enrolled 5 days per week is \$175.00. Students attending fewer than 5 days per week will be charged a prorated amount.

5. HEALTH INFORMATION

We will respond to illness or accidents at school. The school staff will take whatever appropriate emergency steps are necessary for any child involved in a life-threatening situation. This may include calling 911 and/or transporting the child to the nearest hospital or emergency facility. The school nurse will be notified, and reasonable attempts will be made concurrently to notify parents or legal guardians. At least one staff member will stay with the child until the emergency situation is resolved or the child is released to parents, the emergency contact person you have designated on your enrollment information or another responsible person. Any costs occurring as a result of care shall be borne by the parents.

If a student is injured at school. The district has student accident insurance to cover some expenses. The coverage is supplemental to any insurance parents may have on their child and pays only after the child's personal insurance coverage has responded. The district insurance has certain limits and pays the "usual and customary" charges, so it may not pay 100% of your child's bills. In the event a student does not have any insurance coverage, parents will need to provide a signed letter stating such when the claim is submitted. The Business office only sends out insurance claim form upon the request from the parents of the student, not for every student accident report. Please be aware that all claims must be reported by parents to the insurance company with 90 days of the accident. If you have questions about the insurance coverage or the procedures for filing claims, please call the Business Office at 339-4000.

Allergies

If your child is allergic to any foods, such as milk products, peanuts or peanut products, or he/she is allergic to any insect bites, we need to have this information in his/her file so we can develop a health care plan. Please be sure that the school nurse knows your wishes regarding allergic reactions and our response.

Medications

The district requires that a medication form be filled out for any prescription or non-prescription medication that needs administration. Any Prescription Medication must be in the original childproof container, clearly labeled with the child's name, physician's name and number, instructions on administration and expiration date. Please do not put any medications in your child's cubby, backpack or pockets. This could endanger any child as accidental ingestion may occur. All medication will be kept in the health room at the building. If you have any questions or need clarification, please contact the school's health room.

Nebulizers

If your child's doctor prescribes nebulizer treatments, please be sure to supply the preschool with appropriate written documentation and work with the building nurse to manage this treatment.

Illness

Colds, flu and other contagious diseases seem to occur frequently and spread easily among preschool children. To help protect your own child's health and to minimize the possibility of contagion at school, please keep your child at home if you observe any of the following symptoms:

- Nasal discharge that is green or yellow
- Complaints of ear pain
- Productive cough
- Severe sore throat
- Eyes that are pink, burning or itching or producing discharge
- Diarrhea or vomiting
- Fever

If these symptoms of possibly contagious conditions are observed in your child during the day, you will be called to pick up your child immediately.

When your child has a fever, please keep him/her at home an additional 24 hours after the temperature returns to normal, without the aid of Tylenol or other fever reducing substance. This will help to ensure that the illness has actually passed and that your child will be well enough to resume school activities.

When your child returns to school, he/she should be feeling well enough to participate in all activities, including recess. Exceptions require a note from your doctor. Please have your doctor communicate with the building nurse if the inability to participate will be lengthy.

If your family is eligible for Medicaid Services, the district may seek your permission to share information about your child with a disability with the Kansas Health Policy Authority. Your consent to share this information will allow the district to seek reimbursement for any health-related services that are claimable under the Title XIX Medicaid Program or the Title XXI State Child Health Insurance Program. These services include: Audiology, Nursing Services, Occupational Therapy, Speech/Language Therapy, and Physical Therapy as specified in your child's IEP. The district will also seek a physician's signature to validate the services listed in the IEP. This consent will not impact any entitlements or payments your family may receive from Medicaid now or in the future.

6. TRANSPORTATION

We have guidelines to ensure your child's safety on the bus. Please know that the number of students riding your child's bus may fluctuate from day to day as new students are added to the route. This may affect pick-up and drop-off times by a few minutes. We have several substitute bus drivers so you may see someone else driving the bus on a given day. Students are entitled to only one designated pick-up address and one designated drop-off address per student. The pick-up and drop-off locations may be different, but each must remain consistent. This allows us to insure accurate accountability of students on the buses and keep the buses on a more stable schedule.

Pick –Up Time: Please have your child ready and watching for the bus several minutes prior to the expected pick-up time. Drivers have schedules they must follow as closely as possible. Frequently they have other routes to cover following the preschool route. Drivers are not required to honk upon arrival.

Drop-Off Time: Please be at the drop-off location several minutes prior to the expected delivery time. It is difficult for the children on the bus to wait and it delays the remainder of the arrival times if there is no one to receive a child. When your child is dropped off at home, be certain the driver is able to see you so he/she will know you are there to receive your child. Please do not send other children to wave the bus on as the driver will not leave until he/she can see a parent or adult present. Please inform us if someone other than the usual person will be meeting your child at the bus. We must insure your child's safety and will only release him/her to others with your prior approval. Because this is so important for the safety of your child, if no one is present to meet your child, we will follow these steps to be sure we are working together to that end:

* 1st Time - The driver will contact the Transportation Office who will contact the parent by telephone to come to the designated stop.

* 2nd Time - The driver will finish the route and return the child to the Transportation Office. The parent/guardian or child care provider is now responsible to pick up the child from the Transportation Office.

* 3rd Time - The student may be considered a “child in need of care”. The police may be contacted and the student will be released to an officer. Students may lose their transportation privileges at this time. This will be left to the discretion of the School Administrator.

If your child does not need transportation for a period of time, please call us with your child’s bus number and dates and times he/she will not be riding. Transportation may be reached at 339-4050 from 6:30 AM to 5:00 PM on school days.

7. DISTRICT POLICIES

Weapons and/or dangerous materials are prohibited. The school district does not allow the possession or use of any weapon and/or dangerous material on school property, at any school activity, or any school-sponsored event. A student shall not knowingly possess, handle or transmit any object that can reasonably be considered a weapon or dangerous material. The building principal will deal with any violation of this policy.

Drugs are prohibited. The school district is committed to the education of every student in drug abuse awareness and zero substance abuse. The possession, use, consumption, distribution or sale of drugs or intent to distribute or sell drugs, is strictly prohibited. If controlled substances are found, law enforcement officials will be contacted by the building principal.

Sexual harassment is prohibited. Sexual harassment is unlawful discrimination on the basis of sex and is not acceptable in the school setting. This includes students, employees, visitors, and any other person associated with the school. Anyone who witnesses an act of sexual harassment should report the incident to the building principal.

Appropriate Dress. In selecting appropriate school clothes, students should consider cleanliness, comfort, neatness, and good grooming. Clothing that is too revealing or clothing with designs, pictures, or print which refers to drugs, alcohol, tobacco, sex, vulgarity, weapons, or gangs are prohibited. Students are not permitted to wear head coverings (such as hats, scarves, or visors) in the building. Heelys or shoes with wheels are not allowed at school.

Appropriate shorts are walking shorts or tennis shorts. Biking tights and similar tights may be worn in combination with shorts or skirts. “Sagging” of pants, shorts, etc. is not allowed. Halters, midriffs, tank tops, and spaghetti straps may be worn only with a t-shirt underneath or overblouse.

When this policy is violated, staff will contact parents for a change of clothing before they may attend class. The Early Childhood Supervisor will make the final decision on the appropriateness of individual

student dress and appearance. Dress and appearance which is disruptive to the learning environment will not be tolerated.

Racial harassment is prohibited. The district is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment on the basis of race, color or national origin. Racial harassment is prohibited. Anyone who witnesses or experiences racial harassment should report the incident to the building principal.

Bullying behavior is not allowed. Each building has developed a plan to address bullying that includes student training, supplemental staff training and parent awareness information. The staff at the preschool will support students to treat each other respectfully, to communicate their needs, and resolve conflicts.

School Safety Hotline: To report any threat to school safety call 1-877-626-8203. These calls are toll free and anonymous.

The Family Rights and Privacy Act (FERPA) is followed in our schools. It stipulates that student records, except directory information are considered confidential. Procedures are followed to govern access to your child's records and the sharing of information about your child. In most situations, we will seek your written permission to share records. However, records of students who move from one Kansas school district to another may be shared between those districts without parental consent.

This means that information you may learn about another student in our program is also to be kept confidential. For example, if you are visiting your child and you observe a classmate who may have a noticeable disability, you should not share specific information about that child to others who do not have a need to know. For this reason, teachers will not discuss other children with you.

Directory information is not confidential. The district has specified the following as directory information: student name, address, telephone number, date of birth, student's participation in recognized school activities, dates of attendance, the most recent previous school district attended by the student, and parent name.

We are "mandatory reporters" to the Kansas Department of Social and Rehabilitation Services. Teachers, administrators and other educational professionals are required by Kansas law to file a report with SRS or law enforcement officials if there is reason to suspect that a child has been harmed as a result of physical, mental, emotional, or sexual abuse. We do not do any investigation or make any judgments or decisions in these situations. Reporting is a request for an assessment into the condition of a child. Most of the time Kansas law provides the identity of the reporter may not be disclosed to the child's parents, or persons having legal responsibility for the child or to such persons' legal representatives.

The Auburn-Washburn district does not discriminate against any applicant, employee, or student in the admission or access to educational programs, activities, or employment on the basis of race, color, religion, creed, national origin, marital status, veteran status, gender, age or the presence of a non-job related medical condition or disability.

8. EMERGENCY SAFETY INTERVENTIONS (ESI)

The emergency safety interventions (ESI) law set forth standards for the use of restraint and seclusion to ensure that all Kansas students and staff have a safe learning environment. The standards found in the ESI statutes and regulations are required to be followed in all Kansas public school districts and accredited private schools.

An ESI is the use of seclusion or physical restraint. The use of ESIs shall cease as soon as the immediate danger of physical harm and violent action ceases to exist.

The use of an ESI should never be taken lightly and always be the last step taken to ensure safety. Before using an ESI, a school employee witnessing the student's behavior must have determined that less restrictive alternatives to ESI, such as positive behavior interventions support, were inappropriate or ineffective under the circumstances. *Before using physical restraint, a school employee should be trained in Therapeutic Crisis Prevention (CPI).*

ESIs shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Violent action that is destructive of property may necessitate the use of an ESI. ESIs may not be used for purposes of discipline, punishment, or for the convenience of a school employee.

Physical restraint means bodily force used to substantially limit a student's movement. Physical restraint is NOT:

- Consensual, solicited or unintentional contact and contact to provide comfort, assistance or instruction;
- physical escort;
- prescribed treatments for a student's medical or psychiatric condition by a person appropriately licensed to issue these treatments;
- protective or stabilizing devices either ordered by an appropriately licensed professional or required by law;
- any device used by a law enforcement officer in carrying out law enforcement duties; and
- seatbelts and any other safety equipment when used to secure students during transportation.

**Physical restraint may never be an option for children who have a medical condition that could put the child in mental or physical danger as a result of the use of physical restraint. The medical condition must be in a written statement from the student's licensed health care provider, and a copy of given to the school and placed in the student's file.*

Prohibited types of restraints:

- Prone, or face-down, physical restraint;
- supine, or face-up, physical restraint;
- any physical restraint that obstructs the airway of a student;
- any physical restraint that impacts a student's primary mode of communication;

- chemical restraint (“chemical restraint” means the use of medication to control a student’s violent physical behavior or restrict a student’s freedom of movement); and
- mechanical restraint (“mechanical restraint” means any device or object used to limit a student’s movement).

Seclusion means placement of a student in a location where:

- The student is placed in an enclosed area by school personnel;
- the student is purposefully isolated from adults and peers; and
- the student is prevented from leaving, or the student reasonably believes that such student will be prevented from leaving, the enclosed area.

*A student may not be secluded if the student is known to have a medical condition that could put the student in mental or physical danger as a result of seclusion. The medical condition must be in a written statement from the student’s licensed health care provider, and a copy of given to the school and placed in the student’s file.

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

If a seclusion room has a locking door it must be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in cases of emergency, such as fire or severe weather.

A seclusion room must be a safe place. The room must have good ventilation and lighting, and be free of any condition that could be a danger to the student. The room must also be similar to other rooms where students frequent.

Seclusion is not time-out, which is a behavioral intervention in which a student is temporarily removed from a learning activity without being confined.
