ATTENDANCE POLICY

Good attendance is an important part of a quality education. Research shows that absenteeism can have a negative impact on student achievement. Due to the importance of good attendance, we want to inform and partner with our parent/guardian community on the following attendance expectations.

- A. All students are required by law to have regular attendance from age seven to 18. Enrolled students under age seven are required to attend unless legally withdrawn. Children with disabilities are subject to attendance requirements starting at age three.
- B. Whenever a child is required by law to attend school and such child is inexcusably absent on either three consecutive days, five or more days in any semester, or seven days in a school year, such child is truant. A child is inexcusably absent from school if he/she is absent all or a significant part of the day without a valid excuse acceptable to Board designated school personnel. A significant part of the school day is "50% or more of attendance by the student in his/her daily classes taught."
 1. School personnel will communicate with parents if attendance, as defined in letters A and B above, becomes a concern.
 2. A principal may report a student's noncompliance with the Kansas Compulsory School Attendance Law as follows: "Children who are seven or more years of age but less than 13 years of age shall be reported to the Department of Children and Families. Those who are thirteen or more years of age but less than sixteen years of age shall be reported to the County or District Attorney."
- C. In determining a student's compliance with the compulsory school attendance law, USD 437 will accept the following as valid excuses as defined in Board Policy JBD:
 1. Personal illness;
 2. Appointment for medical treatment;
 3. A family crisis;
 4. Extended absences of a student when expressly requested by the parent or guardian and prior arrangements have been made in preparation for the absences as defined in student handbooks;
 5. Obligatory religious observances;
 6. Participation in a district-approved or school sponsored activity, and,
 7. Students of active military duty personnel may have additional excused absences at the discretion of the principals for visitations relative to leave or deployment.
- D. Teachers and principals will maintain accurate records of attendance and tardiness. Excessive absenteeism and tardiness will be addressed by the principal.
- E. School personnel reserve the right to request written notes from the attending physician when absences are interfering with a student's education.

The most important part of our attendance procedure is that parents must call the school within one hour after school begins whenever their student cannot attend. If no call is received, the absence will be considered unexcused, at the discretion of the principal. Notes are not acceptable unless prior arrangements have been made with the principal.

ARRIVAL & DISMISSAL AT SCHOOL

Pupils should not arrive on the school grounds prior to ten minutes before the first class and should be off the school grounds ten minutes after the last class, unless otherwise detained by a teacher or principal. Each site will establish bus/automobile arrival and dismissal procedures to insure safety

TARDINESS TO SCHOOL

All students who are tardy to school must report to school office prior to being admitted into the classroom. Teachers who receive students who are tardy should make every effort to determine the reason for the tardiness. Parents are asked to cooperate in notifying the school when a child is going to be tardy.

HEALTH

Please do not send your child to school if he/she has been vomiting, had diarrhea or has had a fever of 100.4 or above within the last 24 hours. Your child must be symptom free without the aide of medication, which includes fever-reducing medication for 24 hours before returning to school. If a child comes to school, he/she will be expected to participate in all areas, including recess and Physical Education, exceptions require a written request from the parent/guardian that is supported by a Medical Doctor or Doctor of Osteopathy. The request must include the activities and the dates the student cannot participate.

As indicated in KSA 65-122 it is the duty of the parent, guardian, school principal, or other individual in charge of the public school to exclude there from any child or other person affected with a disease suspected of being infectious or contagious until the expiration of the prescribed period of isolation or quarantine for the particular infectious or contagious disease as outlined in the Kansas Classroom Handbook of Communicable Disease. (available online at www.kdheks.gov)

MEDICATIONS

All medication will be stored in the health room. Medication will be administered by the health personnel or designee.

Prescription medication must be in the original container and must be accompanied by written permission from the parent/guardian and a Medical Doctor, Doctor of Osteopathy or dentist for each individual medication, and must be taken to the Health Room without delay for safe-keeping. (Prescription label will be considered physician permission). It shall remain the responsibility of the student to

report to the Health Room when dosage is due. Herbal remedies and vitamins will be considered as nonprescription medication and will be subject to the same prescription requirements. When student medication is kept at school, it is the responsibility of the parent to know when the medication is to be refilled.

LEAVING SCHOOL

Students must report to the office before leaving school during school time. Children will not be allowed to leave school with anyone except legal guardians or parent(s), unless authorized by direct contact with the principal.

ILLNESS OR ACCIDENTS AT SCHOOL

The school will take whatever appropriate emergency steps are necessary for any student involved in a life-threatening situation. This may include calling 911 and/or transporting the student to the nearest hospital or emergency facility. The school nurse will be notified, and reasonable attempts will be made concurrently to notify parent(s) or legal guardian. At least one employee will stay with the student until the emergency situation is resolved or the student is released to the parents, the emergency contact person, or another responsible person. Any costs occurring as a result of care shall be borne by the parents or persons for whom the care is administered.

STUDENT ACCIDENT INSURANCE

If a student is injured during the school day or while participating in a school activity, the District has student accident insurance to cover some expenses. The coverage is supplemental to any insurance parents may have on the student and pays only after the student's personal insurance coverage has responded. The District insurance has certain limits and pays the "usual and customary" charges, so it may not pay 100% of the bills. In the event a student does not have any insurance coverage, parents will need to provide a signed letter stating such when the claim is submitted. The Business Office only sends out insurance claim forms **upon request** from the parents of the student, not for every student accident report. Please be aware that **all** claims must be reported by parents to the insurance company **within 60 days of the accident.**

If you have questions about the insurance coverage or the procedures for filing claims, please call the Business Office at 339-4000.

PARENT/SCHOOL COMMUNICATION

It is essential that parents call the school office if there is a change of address or phone number, or a change of the designated person to be called in case of emergency. Parents need to keep the school informed of special occasions, concerns, or problems that may arise within the home or at school. Since the teacher is the one who spends the most time with the students, it is best to contact the teacher before calling the

principal. If the matter is not resolved to the parent's satisfaction, the principal should be contacted. Should there still be a concern, the Superintendent or the Superintendent's designee should be contacted at the Administrative Office.

USE OF TELEPHONE

Students are discouraged from using the telephone unless it is absolutely necessary. Students must have permission from a staff member prior to using the phone. Students will not be called from class to the telephone except in case of an emergency.

VISITORS

Parents are welcome to visit their child's classroom. Arrangements should be made in advance with the teacher. The teacher and/or principal will determine the appropriate frequency and length of visits.

All visitors should enter the building through the main entrance and report to the school office upon arrival at the school.

Parents are asked to notify the school if children are approached by strangers during the school day or while going to and from school.

REPORTING OF GRADES

Report cards will be sent home with students at the end of each nine (9) week session, except after the first nine (9) weeks when they are given at conferences.

Parents may contact the teacher if any questions arise concerning the report. Much is to be gained by checking directly with the teacher if a problem exists.

PHILOSOPHY OF REPORTING TO PARENTS

Since home and school share responsibility for the education of children, accurate information must be communicated between teachers and parents. The formal communication systems used in the elementary schools are the report card and conferences. These forms of sharing information about a student's progress are designed to assist in developing a positive relationship between the parents and the teacher so all can work together to enhance every child's education.

STUDENT PROGRESS INFORMATION ONLINE

Infinite Campus is a tool that gives parents of students online access to student schedules, grades, assignments, attendance, and more. Visit www.usd437.net for complete information.

PARTIES AND BIRTHDAYS

1. We ask that no birthday invitations be brought to school and passed out unless every student in the class receives one.
2. The treating of students by other students for birthdays or other special occasions should be arranged with the classroom teacher.
3. Room parties may be held upon three (3) occasions during the year: Halloween, Winter Break, Valentine's Day.

EQUIPMENT, TOYS, PETS, AND ELECTRONICS

Children are not allowed to bring their own play equipment to school. All equipment to be used will be furnished by the school, except ball gloves. Other exceptions may be made by the individual schools. Students who bring personal articles to school **DO SO AT THEIR OWN RISK**. The school will not assume responsibility for the repair or replacement of personal items.

The use of student owned toys or games are not permitted during the school day unless previous arrangements have been made with the teacher. Any such items brought to school without permission will be confiscated and may be picked up at the school office by the child's parent.

For the safety of the children and the animals, students are not to bring pets to school. If such a request is made, the teacher will get in touch with the parent(s) by written communication or by a phone call. Prior to bringing your pet to school, please read the state regulations. Information on what pets can or cannot be brought on school grounds and into the school, and how the pets are to be brought to school can be found at: www.kdheks.gov. Please contact your child's teacher to inquire if pets are allowed in their classroom. If pets are allowed, your child's classroom teacher will provide a time that is best for you to bring your pet to school.

Students may possess or use personal electronic devices (cell phones, iPods, tablets, Blackberrys, etc.) on school campus (per building rules) provided that such devices do not disrupt the educational program or school activity and are not used for illegal or unethical activities such as cheating on assignments or tests, bullying, or accessing inappropriate materials.

Electronic devices shall be turned off and kept out of sight during school hours or at any other time as directed by a school district employee, except when otherwise permitted, for educational purposes, by the teacher, administration or in school policy.

Devices are brought to school at the owners' risk. The school is not responsible for lost or stolen devices.

RECESS & PHYSICAL EDUCATION

All students are expected to participate in recess and P.E. If the temperature (or wind chill factor) is 20 degrees or higher and the weather is not inclement, students will ordinarily go outside for recess. The office will determine indoor/outdoor recess. Generally, if a child is able to attend school, he or she is able to participate. Please send a doctor's statement (to classroom teacher) should your child need to stay in from recess and/or is not able to participate in P.E. for two or more consecutive days.

PARENTS VOLUNTEERING ON FIELD TRIPS

Parents are encouraged to volunteer for their child's class field trips. Due to liability concerns, we ask that parents not bring siblings on the trip. Please visit with your child's classroom teacher regarding the opportunity to volunteer on a field trip.

APPROPRIATE DRESS

In selecting appropriate school clothes, students should consider cleanliness, comfort, neatness, and good grooming. Clothing that is too revealing or clothing with designs, pictures, or print which refers to drugs, alcohol, tobacco, sex, vulgarity, weapons, or gangs are prohibited. Students are not permitted to wear head coverings (such as hats, scarves, or visors) in the building. Heelys or shoes with wheels are not allowed at school.

Appropriate shorts are walking shorts or tennis shorts. Biking tights and similar tights may be worn in combination with shorts or skirts. "Sagging" of pants, shorts, etc. is not allowed. **Appropriate gym shoes must be worn for P.E.** Halters, midribs, tank tops, and spaghetti straps may be worn only with a t-shirt underneath or over-blouse.

When this policy is violated, students will make arrangements for a change of clothing before they may attend class. The principal (or designee) shall make the final decision on the appropriateness of individual student dress **and appearance. Dress and appearance which is disruptive to the learning environment will not be tolerated.**

SCHOOL CLOSING & EVENT CANCELEATION

The decision to close school because of severe weather or other situations is made by the Superintendent. Closing information will be posted on the district website www.usd437.net and at www.facebook.com/auburnwashburn. A recorded message will be available at 339-4000. Closings will also be shared for announcement on area radio and television stations.

It will always be the right and privilege of parents to keep children at home or pick them up from school during severe weather, extreme heat, or any other situation where a pupil's health or safety may be questioned.

In the event of inclement weather or weather watches/warnings the decision may be made to cancel afternoon or evening events scheduled for the elementary schools. This decision will be made at the discretion of the building principal.

DRILLS

FIRE

- A fire drill will be held monthly in each of the buildings. The method of sounding the fire alarm will be determined by the building principal. The principal will establish the procedure for the school.
- When the fire alarm sounds, everyone is to leave the building. This includes visitors, supervisors, clerks, custodians and cooks, etc.

TORNADO

TRANSPORTATION

Parents are encouraged to read and discuss with their children the rules for riding the school bus. The help of parents in promoting obedience to school bus rules and supporting adherence to these rules greatly assists the drivers in maintaining proper discipline.

Please reinforce with your children the importance of being seated promptly on the bus, staying seated while the bus is moving, and conducting themselves in such a manner that the bus driver can devote his/her time to the task of driving a bus.

The Auburn-Washburn drivers have ongoing safety training and work continuously to maintain proper student discipline on the bus. The district has a good safety record, and with the pupils' cooperation and your support, we believe the district can maintain a safe and efficient transportation program.

All students, including kindergartners, must have a designated pick-up location and a designated drop-off location. The pickup and drop-off locations may be different, but each must remain constant. **These locations are part of the transportation plan established at enrollment which must be followed unless the school receives written notice from the parent or guardian.**

BUS SAFETY RULES

It is the policy of the Auburn-Washburn School District to take the following measures in order to better protect our district technology users from harmful online and electronically transmitted content:

All policies regarding behavior and use apply to personally owned devices while in use on school grounds.

The Auburn-Washburn School District makes no warranties of any kind, neither expressed nor implied, for the technology resources it is providing. The District will not be responsible for unauthorized financial obligations resulting from District-provided access to the Internet.

Only software (computer programs) legally licensed and owned by the Auburn-Washburn School District may be installed on devices in the school district. This includes lab computers, district provided student devices, and district provided staff devices. The district technology department will maintain a list of educational programs approved for use on all district computers.

This Acceptable Use Policy and Children's Internet Protection Act Safety Plan was adopted by the Board of USD 437 at a public meeting during the regularly scheduled Board meeting on May 20, 2013. This policy and all its provisions are subordinate to Board of Education Policy, local, state, and federal statutes.

STUDENT GOOGLE ACCOUNTS

Upon enrollment in Auburn-Washburn USD 437, every student is provided with a Google Apps for Education account under the district's domain. However, access to digital tools is differentiated by grade level based on age appropriateness and curricular use.

- Accounts for PreK through Grade 2 students are the most restrictive and allow students access to Google Drive. Teachers teach students to use the sharing functions of Google Drive and use it to facilitate sharing of instructional materials between teachers and students. These students also have access to YouTube to view video content screened and selected by their teacher, but may also have access to other digital resources.
- Accounts for Grade 2 through Grade 6 students keep existing Google tools and gain access to Gmail. In order to protect student privacy while facilitating communication between students and teachers, these Gmail accounts can only email others within the district's domain.
- Accounts for Grades 7 through Grade 12 keep existing Google tools and gain full access to Gmail. Full access to Gmail allows students to email others both within and outside of the district. By providing this access to students, we are able to engage them in global collaboration and cooperative learning opportunities with other schools and experts in the field.

If you are interested to learn more about Google Apps for Education and how they are used in your student's educational program, please contact your student's classroom teacher directly.

Sexual harassment shall not be tolerated in the school district. Sexual harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to sexually harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment is unwelcome sexual advances, requests for sexual favors and other inappropriate oral, written or physical conduct of a sexual nature when made by a member of the school staff to a student or when made by any student to another student when: (1) submission to such conduct is made, explicitly or implicitly, a term or condition of the individual's education; (2) submission to or rejection of such conduct by an individual is used as the basis for academic decisions affecting that individual; or (3) such conduct has the purpose or effect of interfering with an individual's academic or professional performance or creating an intimidating, hostile or offensive academic environment.

Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

An employee who witnesses an act of sexual harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of sexual harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the building coordinator or district coordinator shall report such conduct to the appropriate law enforcement or SRS authorities.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual's status or grades. Any act of

retaliation against any person who has filed a complaint or testified, assisted, or participated in an investigation of a sexual harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

The policy shall also be published in student, parent and employee handbooks as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

BULLYING PLAN

The Board of Education prohibits bullying in any form, including electronic means, on or while using school property, in a school vehicle or at a school-sponsored activity or event. The administration shall propose, and the board shall review and approve a plan to address bullying on school property, in a school vehicle or at a school-sponsored activity or event.

The plan shall include provisions for the training and education of staff members and students and shall include appropriate community involvement as approved by the board. Students who have bullied others in violation of this policy may be subject to disciplinary action, up to and including suspension and expulsion. If appropriate, students who violate the bullying prohibition shall be reported to local law enforcement.

Each elementary school will develop and implement a plan to address bullying that includes student training, supplemental staff training, and parent awareness information.

STATEMENT OF NONDISCRIMINATION

The Auburn-Washburn School District, USD #437, does not discriminate against any applicant, employee, or student in the admission or access to educational programs, activities, or employment on the basis of race, color, religion, creed, national origin, marital status, veteran status, gender, age, or the presence of a non-job related medical condition or disability.

EMERGENCY SAFETY INTERVENTIONS (ESI)

The emergency safety interventions (ESI) law set forth standards for the use of restraint and seclusion to ensure that all Kansas students and staff have a safe learning environment. The standards found in the ESI statutes and regulations are required to be followed in all Kansas public school districts and accredited private schools.

An ESI is the use of seclusion or physical restraint. The use of ESIs shall cease as soon as the immediate danger of physical harm and violent action ceases to exist.

The use of an ESI should never be taken lightly and always be the last step taken to ensure safety. Before using an ESI, a school employee witnessing the student's behavior must have determined that less restrictive alternatives to ESI, such as positive behavior interventions support, were inappropriate or ineffective under the circumstances. *Before using physical restraint, a school employee should be trained in Therapeutic Crisis Prevention (CPI).*

ESIs shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Violent action that is destructive of property may necessitate the use of an ESI. ESIs may not be used for purposes of discipline, punishment, or for the convenience of a school employee.

Physical restraint means bodily force used to substantially limit a student's movement. Physical restraint is NOT:

- Consensual, solicited or unintentional contact and contact to provide comfort, assistance or instruction;
- physical escort;
- prescribed treatments for a student's medical or psychiatric condition by a person appropriately licensed to issue these treatments;
- protective or stabilizing devices either ordered by an appropriately licensed professional or required by law;
- any device used by a law enforcement officer in carrying out law enforcement duties; and
- seatbelts and any other safety equipment when used to secure students during transportation.

**Physical restraint may never be an option for children who have a medical condition that could put the child in mental or physical danger as a result of the use of physical restraint. The medical condition must be in a written statement from the student's licensed health care provider, and a copy of given to the school and placed in the student's file.*

Prohibited types of restraints:

- Prone, or face-down, physical restraint;
- supine, or face-up, physical restraint;
- any physical restraint that obstructs the airway of a student;
- any physical restraint that impacts a student's primary mode of communication;
- chemical restraint ("chemical restraint" means the use of medication to control a student's violent physical behavior or restrict a student's freedom of movement); and
- mechanical restraint ("mechanical restraint" means any device or object used to limit a student's movement).

Seclusion means placement of a student in a location where:

- The student is placed in an enclosed area by school personnel;
- the student is purposefully isolated from adults and peers; and
- the student is prevented from leaving, or the student reasonably believes that such student will be prevented from leaving, the enclosed area.

*A student may not be secluded if the student is known to have a medical condition that could put the student in mental or physical danger as a result of seclusion. The medical condition must be in a written statement from the student's licensed health care provider, and a copy of given to the school and placed in the student's file.

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

If a seclusion room has a locking door it must be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in cases of emergency, such as fire or severe weather.

A seclusion room must be a safe place. The room must have good ventilation and lighting, and be free of any condition that could be a danger to the student. The room must also be similar to other rooms where students frequent.

Seclusion is not time-out, which is a behavioral intervention in which a student is temporarily removed from a learning activity without being confined.

EMERGENCY SAFETY INTERVENTIONS POLICY

GAAF Emergency Safety Interventions (See GAO, JRB, JQ, and KN)

The board of education is committed to limiting the use of Emergency Safety Intervention (“ESI”), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student’s conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

“Time-out” means a behavioral intervention in which a student is temporarily removed from a learning activity without being secluded.

Prohibited Types of Restraint

All staff members are prohibited from engaging in the following actions with all students:

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student’s airway;
- Using physical restraint that impacts a student’s primary mode of communication;
- Using chemical restraint, except as prescribed treatments for a student’s medical or psychiatric condition by a person appropriately licensed to issue such treatments; and
- Use of mechanical restraint, except:
 - Protective or stabilizing devices required by law or used in accordance with an order from a person appropriately licensed to issue the order for the device;
 - Any device used by a certified law enforcement officer to carry out law enforcement duties; or
 - Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administra-

tion shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss pro-

active ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a

written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.
