# Summer Transportation STEM CAMP

## Come join the fun and experience camp at Washburn University!!

If you're a rising 7th or 8th grade student interested in science, technology, engineering and math, STEM Camp is a great opportunity to learn more about the practical application of science in transportation. Today's transportation industry seeks young people who want to learn about and experience STEM programs.

At the Washburn University STEM camp, you will learn to work as a team with other campers to create, invent, and problem solve. You will also have the opportunity to work with robotics, as well as make 3D designs in CAD.

Camp is free including meals and residing in one of Washburn's modern residence halls. Space is limited, so submit your application today, see below.

Learn more about STEM including:

- Robotics
- 3D Design
- Design and build bridges
- Create and test water rockets
