# From the Desk of Our Principal

Hello Again!

As you know, we have recently ended the first 9-week grading period. Amidst these challenging times, we've settled into a safe routine and I have every hope that we are poised for even greater things for the remainder of the year. As a parent, I feel privileged to have my own child in this school district. As a principal, I want you to know that you can feel very good about the education that your children are receiving at WRHS. Having said that, we do realize that, for some students, learning can be difficult and we are fully prepared to assist them in any way necessary. **If this is true of your child, there is still time to address problems before the end of the semester.** I would like to share with you some of the avenues for assistance at your disposal.

If you haven't already discovered it, our Parent Portal is an excellent way to track your child's grades, discipline, attendance, lunch account balances, etc. In order to view this information, you will need an activation key which can be obtained by calling Ms. Susan Kaspar at 339-4104. Susan is my Administrative Assistant and will be happy to walk you through the process of accessing this information. Since the data in this system is updated daily, you should be able to develop a clear picture of your child's performance. If parental monitoring doesn't address poor performance in school, I would encourage you to seek additional assistance from your child's teachers.

Teachers are available before school, after school and during other mutually agreed open times for additional remediation. Teachers are in their classrooms by 7:30 AM and, in most cases, until 3:30 PM. Obviously, teachers who also serve as coaches would not be available after school, but are more than willing to make arrangements with your son or daughter for extra help before school. If you find that your child needs additional help, I would encourage you to contact your child's counselor. For your convenience, I have listed them below.

**Leslie Fischer (339-4117):** Responsible for students whose last names are A-D

**Keith Wetzel (339-4116):** Responsible for students whose last names are E-J

**Stephanie Berkhalter (339-4103):** Responsible for students whose last names are K-O

**Michelle Pegram (339-4911):** Responsible for students whose last names are P-T

**Cynthia Coufal (339-4118):** Student Services

**Marcie Frederickson (339-4115):** Responsible for students whose last names are U-Z, International Baccalaureate, Student Services-Gifted

**Jason Parker (339-4119):** Responsible for students in Alternative Education – B3 School

Our counselors are more than willing to provide assistance in other ways in order to help your child reach his/her academic goals. A multitude of services exist at WRHS that the counselors can help coordinate with you and your child. If individual attention from the teacher and other interventions prove ineffective in solving your challenges, your child may be referred for further intervention through our Student Intervention Team (SIT). The SIT is a group of trained educational professionals, and you, of course, who will conduct a comprehensive analysis of your child's academic progress and habits. After the evaluation is complete, intervention may be recommended to address academic performance issues. Fortunately, most problems can be effectively resolved through this process. For those that are not, our counselors will be happy to discuss more aggressive options with you.

It is our mission to ensure that every student learns to the best of his/her ability. Please do not be the least bit hesitant about letting us know how we can assist you.

Best,

**Program Highlight:** Each month we will highlight a different academic program at Washburn Rural. This month, we are highlighting the Advanced Placement Program. Advanced Placement courses are rigorous, college-level coursework designed for high school students. The College Board, the creator of the PSAT and SAT, develops the curriculum and assessments.

AP courses are subject-specific courses and are open to all WRHS students who have taken the prerequisite courses. Students can choose to sit for optional exams in May, following the course. The exams cost around \$100 and are scored on a scale of 1-5. These exams are usually 3-4 hours in length and include multiple choice as well as free-response questions. Exams are graded by the College Board and students receive their score in August.

In Kansas, colleges must award credit for a score of 3 or higher. Typically, a 3 on an AP exam will translate to 3 college credits or one class. Since one college class tends to cost around \$1000, we encourage families to view AP exams as an investment. We have many WRHS students who start college with several credits earned by taking the AP exams.

Another advantage of pursuing AP courses is that research indicates that students who take ONE AP exam graduate college in 4 years at a rate of 54%. When we compare the Kansas 4 year college graduation rate of 36%, we know that our students who pursue AP courses are setting themselves up for success and are increasing their chances of earning their Bachelor's degree.

We hope all students will research their opportunities closely and consider stretching themselves, even if only in one subject area: [KBOR Credit Policy](#), [AP Research](#), [AP Website](#), and [AP Courses at WRHS](#).

## **Second Semester Schedule Changes**

Starting in November, counselors will work to fill second semester gaps for grades 9-11. Students should email their counselor to discuss scheduling concerns and issues. Please note that schedules are tentative until the first day of school.

## **Freshmen 4 Year Planning**

The Class of 2025 have been working on creating their 4 year plans in Naviance. This is an important component of their Individual Plan of Study as mandated by the State of Kansas. Please note this is a tentative plan and will be revised during spring pre-enrollment. We encourage families to work together to create a plan which will help students set goals and aspire to maximize their potential. We hope students will explore our wide range of opportunities available including but not limited to: Career and Technical Education, Washburn Institute of Technology, Washburn University Dual Credit Courses, Honors and Advanced Placement Courses, and the International Baccalaureate Diploma Program.

## **Senior Meetings**

During the month of October, counselors met individually with all seniors to discuss postsecondary planning. As we all know, the Class of 2022 is an impressive group of young people. Whether off to the military, workforce, technical college, college, or other pursuits, our students have ambitious goals and we look forward to watching them succeed. As the year progresses, please continue to reach out to your school counselor with questions regarding the transition beyond high school.

**Useful Resource for Families:** The Kansas Department of Health highlights several teen issues in the [Youth Health Guide](#) that may be useful for families. [https://www.kdheks.gov/c-f/downloads/Youth\\_Health\\_Guide.PDF](https://www.kdheks.gov/c-f/downloads/Youth_Health_Guide.PDF)

About the Show

By Lauren Gunderson

Presented by special arrangement with Dramatists Play Service

The King's Men are getting the band back together. The goal: to gather Shakespeare's scattered masterpieces and bind them to each other, and to history. Oh, and to make sure some hack doesn't completely ruin "Hamlet" in the meantime. It's a grand feat, to be sure. Especially for a community of actors who may know all the ins and outs of iambic pentameter, but next to nothing about binding books. Even so, they undertake their mission with pluck and wit and hearts full of joy. It's a theatrical, beat-the-clock race to save a legacy, and to re-discover themselves along the way.

# ◆ Career and Technical Education

## Career Technical Education @ WRHS

### CTE Update

Several CTE Pathways were recently enhanced thanks to classroom grants from the Auburn-Washburn Public Schools Foundation.

-Ms. Shetler-Logan received funding for equipment to establish a stop-motion animation studio. Students in the [Web & Digital Communications Pathway](#) animation courses will learn techniques behind popular movies, like [The LEGO® Movie](#), so they can create their own short animated features.

-Mr. Vander Hart purchased [3Doodler Pen](#) sets. The 3D Pens will help connect business lessons with STEM education and allow students to create logos, store layouts, and prototypes of their products. The pens will be used in classes in the [Marketing Pathway](#).

-Mr. Vandervort and students in the [Agriculture Pathways](#) will enjoy new greenhouse benches for propagating plants and flowers grown for the annual spring sale.

Students and teachers are busy in the classroom, as well as attending conferences and competitions. Visit [wrhs.net/cte](http://wrhs.net/cte) to learn more!

### Featured Career Pathways

This month we will highlight the [Architecture & Construction](#) and the [Health & Bio Sciences](#) Career Clusters.

#### [Architecture & Construction](#)

This [Career Cluster®](#) is focused on careers in designing, planning, managing, building and maintaining the building environment.

WRHS offers two strands of this Pathway, one emphasizes Construction and the other Design. Both strands offer high level hands-on experience.

Students in both strands will have an opportunity to work on design, layout, and building through various projects in the classroom. They will learn the importance of accuracy, craftsmanship, and safety when using advanced power tools and stationary machinery related to the construction industry.

Instruction in the Design strand includes using Computer-Aided Design software (AutoCAD) to create designs and floor plans, as well as all the research that goes into the pre-construction phase of building.

In the Construction strand, a partnership with [SENT Topeka](#) has allowed students to be involved in completing the framework of a home that is transferred to the Hi-Crest neighborhood to help them provide affordable housing options. The cabinetry in the home is also fabricated by WRHS students.

# ◆ Career and Technical Education

Students who have participated in this pathway have gone on to or are planning to continue their education to become architects, engineers, and construction professionals.

For more information about classes in this pathway, students should contact [Mr. Gerlach](#) or [Mr. Grose](#).

More photos can be found on the [Architecture & Design](#) page of the CTE website.

## [Health & Bio Science](#)

This [Career Cluster](#)<sup>®</sup> is focused on planning, managing, and providing therapeutic services, diagnostic services, health informatics, support services, and biotechnology research and development.

Pathways offered in this cluster at WRHS are Biochemistry, Biomedical, and Health Science. Courses in these pathways are related to research, treatment, and understanding of the human body, earthly organisms, and overall wellness.

This pathway offers the opportunity to explore future careers such as doctors, veterinarians, nurses, dietitians, physical and occupational therapists. For those who are not interested in pursuing advanced degrees, careers include medical assistants and technologists, patient care technicians, veterinary technicians, and radiology technicians to name a few.

Students in Sports Medicine II are gaining experience this semester by serving as athletic trainers under the direction of Stormont Vail. They are on the sidelines of home sporting activities of all school districts in Topeka and at Washburn University.

[Excel in CTE](#) (formerly known as Senate Bill 155) makes tuition-free college credit in approved technical courses offered by Kansas technical and community colleges available to high school students. Several students have completed the Certified Nursing Assistant program and are earning high school credit in Healthcare Workplace Experience while they are employed as a CNA.

Students in Mr. Pfeifer's AP Biology class test diffusion of Agar cubes in one of the recently renovated science labs. Click the photos to view the gallery.

Sports Medicine II students tour the training room with Brad Parry, ATC.

For more information about earning college credit and work-based learning opportunities, contact your [high school counselor](#) or [Teresa Golden, CTE Career Coordinator](#).

## Mrs. Finney's Monthly YA Book Recommendation

*Yolk*  
By Mary H.K. Choi  
F CHO

Jayne and June are sisters, born of South Korean immigrants, raised in Texas, living in New York City, but that is all they have in common. Jayne is a college student struggling with anxiety, and June is a successful business woman living one floor below the penthouse suite apartment. Normally they try to avoid each other, but when June gets sick, the two find out that they are the only ones that can save each other. A beautiful, and raw, story about family, sisters, identity, and facing the problems that we don't want to acknowledge.
