

3rd Grade #keeplearning Board #2

Even though we are not physically together, learning happens every day. This #keeplearning Board is designed to keep families and schools engaged with learning while we are apart.

The following lists of activities are at varying levels of difficulty. These are learning opportunities that you may choose to do at home with your child.

<i>Social-Emotional</i>	<i>English Language Arts</i> *Read for 30 minutes EVERY DAY!*	<i>Writing</i>	<i>Math</i>
Give someone a compliment or write a compliment note to someone.	Act out a scene from your story.	Create your own fictional character. Illustrate a picture and include at least 5 character traits for your character.	Play "Multiplication Dice Roll". Roll two dice and find the product. See how many you can get correct in 1 minute. Repeat 5 more rounds.
Find a quiet peaceful space and practice deep, calming breathing. Color as you are in your peaceful space if you'd like.	Create a scene from what you read with your toys and other items in your room.	Write a story from the perspective of a rabbit going down a hole. What does the rabbit experience, see, and feel?	Practice your multiplication math facts 2-12. See how many facts you can answer correctly in one minute.
Make a Feelings Collage: Use some paper, scissors, glue, and old magazines OR draw pictures yourself in a collage. Include as many emotions as you can and label the feelings.	Play charades	Draw a picture of an invention that would make your teacher's job easier. Write a paragraph on why your teacher should buy your product.	Play "Multiplication Top It". Get a deck of cards and flip over the top two cards. Multiply cards together.
Using only words that describe you, (no lines or shapes) create a picture of yourself. The words will become the lines of the "drawing". Color the picture if you'd like.	Create puppets for the characters in your story.	Take a walk and write down what you hear, see, and smell. Draw a picture.	Build a house with cards. Keep a count of how many cards you used before the house falls. Keep trying to improve your design.

Be safe. Be well. #keeplearning

Think about someone that has done something nice for you. Create a note of gratitude for someone. (A thank you note!)

Watch your favorite show with captions on and no sound. Was it difficult to know what was happening?

Write your response and give reasons for your choices. Would you rather be a wizard or a super hero? Draw a picture to illustrate your choice and share it with someone.

Find the perimeter of a room in your house. Use a ruler if you have one. If you don't have a ruler, use your shoe as a ruler!

Be safe. Be well. #keeplearning
